

Customer rebates

When water interruptions or sewer overflows occur, we will restore the water supply or sewer services as quickly as possible. In these situations, and where you have an authorised connection to our water or sewer network, you may be entitled to a rebate.

Unplanned water service interruptions

If you experience an unplanned interruption to your drinking water service (not including your recycled water service) due to a failure of our water system, exceeding five hours in duration, the following rebates will be applied to the water usage component of your next bill.

Interruption	Rebate	Do you need to report it?
First and second unplanned interruption	20 kilolitres	No
Third unplanned interruption	32 kilolitres	No

Planned water service interruptions

If you experience three or more planned interruptions to your drinking water service (not including your recycled water service) in a financial year, each exceeding five hours in duration, a rebate of 20 kilolitres will be applied to the water usage component of your next bill.

Low water pressure

If we assess your property as having experienced low drinking water pressure, in some circumstances, a rebate of 20 kilolitres may be applied to the water usage component of your next bill. Only one rebate will be applied in a financial year. We encourage you to call us on 1300 657 657 to discuss your eligibility for the rebate.

Wastewater overflow

If you experience a dry weather wastewater (sewer) overflow on your property as a result of a failure of our sewerage system (not including shaft breaks) in a financial year, the following rebates will be applied to the water usage component of your next bill.

Wastewater overflow	Rebate	Do you need to report it?
One-off dry weather wastewater overflow	40 kilolitres	Yes
Second dry weather wastewater overflow	80 kilolitres	Yes
Third dry weather wastewater overflow	280 kilolitres	Yes

Dirty water

If you are not provided with clean drinking water suitable for normal domestic purposes, call us on 1300 657 657. We may provide compensation for damage caused by dirty drinking water and we may refund you the cost of water used to flush your water system. Hunter Water will also investigate recurrent dirty drinking water problems.

Boiled water rebate

If NSW Health issues a boiled water alert due to contamination of drinking water that has been caused by us, a rebate of 20 kilolitres will be applied to the water usage component of your next bill, if your property is within the declared boiled water alert area.

Any questions?

If you have any questions regarding our rebates visit hunterwater.com.au/rebates or call us on 1300 657 657.
