

Approved Products & Manufacturers Register - Approved Switchboard Manufacturers

Disclaimer

The manufacturers listed in this document have been authorised by Hunter Water solely for use in the construction and maintenance of switchboards associated with water and/or sewerage infrastructure that is, or will become, the property of Hunter Water. Inclusion in this register does not imply suitability for any other purpose.

Hunter Water accepts no responsibility to notify users of any information, whether known at the time of download or discovered thereafter, relating to the manufacturers listed herein.

This document reflects the status as at the date of download. Hunter Water may revise this register at any time, including the addition or removal of manufacturers, without prior notice. The most current version is available on the Hunter Water website under the [Approved Products and Manufacturers](#) page.
