Hello from Hunter Water

Munibung Creek rehabilitation – Project update

We wrote to you in June 2024 to let you know that work to rehabilitate the southern section of Munibung Creek – between Pendlebury Road and 75 Lachlan Road, Cardiff – will start in the coming months. We've engaged NSW Soil Conservation Service (SoilCon) to complete this work on our behalf.

About the work

Minor work to prepare for construction including vegetation management and clearing will begin **from December 2024**.

Main work to rehabilitate the southern section of the creek, with a naturalised design, **will begin from mid-January 2025**. A site compound will be set-up on the land between 87 and 89 Lachlan Road to enable easy access to the work area. We will be in touch with more information about construction activities closer to the time.

To allow for construction, we will need access to a number of properties in the southern section of the creek. If we need access to your property, a member of our property team will be in touch in shortly.

More information
