Extension of out of hours work for water main construction

We previously notified you that, due to multiple construction teams working across the Belmont Desalination Plant site, SRG Global need to temporarily work outside of their normal hours to continue laying a section of the new water main that will connect to the plant.

This work is taking longer than expected because of unexpected site challenges. The out of hours work, **from 6pm to 6am Monday to Friday, will now be extended until Friday 10 July 2026**. This extension is required to safely complete the remaining works while minimising impacts on other work areas and reducing interactions between people and plant.

How will this affect you

The work zone remains inside the Belmont Wastewater Treatment Works gates, adjacent to the Belmont Desalination Plant site, on Ocean Park Road. While we don't anticipate excessive noise being generated from this work, you may continue to notice light vehicles travelling along Beach Street during this period.

There are no planned heavy vehicle movements to and from the construction area during the after-hours period and there will be no changes to current traffic conditions.

Our aim is to minimise inconvenience to you, wherever possible, and we thank you for your patience.

More information

We will continue to keep you updated as the project progresses. If you would like more information about the water main project, please visit the project website by scanning the QR code.

You can also email utilities.community@srgglobal.com.au or phone SRG Global's Community Information Line on 1300 131 338.

This work is being delivered by SRG Global on behalf of Hunter Water.
